

**INRA RESEARCH POSITION IN ECONOMICS  
LERNA, TOULOUSE SCHOOL OF ECONOMICS**

**JUNIOR POSITION WITH TENURE  
PERMANENT FULL-TIME RESEARCH**

**CR2-2008-14-SAE2-4 Centre : TOULOUSE**

This **Research Position in Environmental Economics and Natural Resources** is opened at **LERNA** by the **Economics Department** of the **French Research Institute INRA** (National Institute of Agronomic Research) and is one of the permanent faculty positions at the **Toulouse School of Economics**.

It is a **full-time permanent research position** at the **Junior Level** (Ph D in Economics) with a salary between 27 000 and 35 000 euros per years. There is no teaching load but teaching at the graduate program of Toulouse School of Economics is possible (with additional salary).

**ABOUT LERNA**

LERNA is one of the leading research institutions in the economics of natural resources and the environment in Europe with about 20 members (see <http://www2.toulouse.inra.fr/lerna>). It is one of the three research centers of the Toulouse School of Economics.

Our ideal candidate has a good knowledge of Micro or Macro Economics, with a taste for dynamic models and/or applied work, based on innovative research. Fields of application include climate change, growth and resources, bio-fuels, ...

**APPLICATION PROCEDURE**

The **application deadline is February 28, 2008** and the procedure is detailed on:  
<http://www.inra.fr/drh/js2008/docs/guide-CR2-2008-ENG>

The candidates should not hesitate to contact the members of LERNA for feedbacks on their projects.
